Notes to the Condensed Interim Consolidated Financial Statements

Unaudited - Expressed in Canadian Dollars

For the nine months ended September 30, 2024 and 2023

1. Nature and continuance of operations

Giga Metals Corporation (the "Company" or "Giga Metals") was incorporated on January 17, 1983, under the laws of the province of British Columbia, Canada, and its principal activity is the acquisition and exploration of mineral properties in Canada. The Company's common shares are listed for trading on the TSX Venture Exchange ("TSXV") under the symbol "GIGA" and the OTCQX under the symbol "GIGGF". 13,667,755 warrants of the Company commenced trading on the TSXV under the symbol "GIGA.WT" effective May 27, 2021 until their expiry on April 23, 2024. The warrants were issued under a warrant indenture dated April 23, 2021 pursuant to the Company's short form prospectus dated April 19, 2021. 12,535,000 warrants of the Company commenced trading on the TSXV under the symbol "GIGA.WT.A" effective February 23, 2022.

The head office, principal address and records office of the Company are located at 700 West Pender Street, Suite 203, Vancouver, British Columbia, Canada, V6C 1G8. The Company's registered address is 2500 Park Place, 666 Burrard Street, Vancouver, British Columbia, Canada, V6C 2X8.

These condensed interim consolidated financial statements have been prepared on the assumption that the Company and its subsidiaries will continue as a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. As at September 30, 2024, the Company's accumulated deficit was \$62,072,766, the Company had not advanced its mineral properties to commercial production and the Company has no other source of revenue from its operations. The Company's continuation as a going concern is dependent upon the successful results from its mineral property exploration activities and its ability to attain profitable operations and generate funds there from and/or raise equity capital or borrowings sufficient to meet current and future obligations. These material uncertainties may cast significant doubt upon the Company's ability to continue as a going concern. As at September 30, 2024, the Company had working capital of \$858,292, giving the Company the ability to meet current obligations.

The Company's business may be affected by changes in political and market conditions, such as interest rates, availability of credit, inflation rates, changes in laws, and national and international circumstances. Recent regional conflicts and potential economic global challenges such as the risk of higher inflation and energy crises, may create further uncertainty and risk with respect to the prospects of the Company's business.

2. Basis of preparation

These condensed interim consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") applicable to the preparation of interim financial statements, including IAS 34 - Interim Financial Reporting. These condensed interim consolidated financial statements should be read in conjunction with the annual consolidated financial statements for the year ended December 31, 2023 which have been prepared in accordance with IFRS as issued by the IASB.

In the preparation of these interim condensed consolidated financial statements, the Company has used the same accounting policies and methods of computation as in the annual consolidated financial statements for the year ended December 31, 2023, except as noted below.

The preparation of interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

References herein to "\$" are to the Canadian dollar and "US\$" are to the United States dollar.

These condensed interim consolidated financial statements were approved by the Board of Directors on November 25, 2024.

Adoption of New Accounting Standards

There were no new standards effective for the nine months ended September 30, 2024 that impacted the Company's condensed interim consolidated financial statements.

Accounting Standards Issued But Not Yet Effective

There are no new accounting standards issued but not yet effective that may impact the Company's condensed interim consolidated financial statements.

Turnagain Cobalt Nickel Project

The Company has an 85% interest in certain mineral claims, located along the Turnagain River in British Columbia, Canada. One claim is subject to a 4% net smelter return royalty ("NSR"). The Company has the option to purchase all or part of the NSR within four years of commercial production for a price of \$1,000,000 per 1% NSR.

In July 2018, the Company sold a 2% NSR on all future metal production from the Turnagain Nickel-Cobalt Project. The Company had the right to repurchase 0.5% of the 2% NSR ("Repurchase Option") for US\$20 million, which if exercised would result in a 1.5% remaining NSR. The one-time Repurchase Option was only exercisable prior to the fifth anniversary of the NSR Agreement. The purchaser of the NSR has a right of first refusal on any future sale by Giga Metals of a royalty or product stream or similar instrument.

Joint Venture with Mitsubishi Corporation

On August 15, 2022, the Company announced that it had entered into a binding agreement with Mitsubishi Corporation ("MC") to form a new company, Hard Creek Nickel Corp. ("Hard Creek"), to jointly pursue the development of the Turnagain Nickel-Cobalt Project. The transaction closed on September 1, 2022.

Hard Creek issued 15% of its common shares to MC for cash consideration of \$8,000,000 and 85% of its common shares to Giga Metals Corporation in exchange for all related assets and liabilities of the Turnagain Nickel-Cobalt Project. Pursuant to the terms of a shareholders' agreement governing Hard Creek, the Company, with support from MC, will operate the joint venture.

The \$8,000,000 cash consideration was used to complete a Pre-Feasibility Study ("PFS"). Once the Company completes a PFS, further expenditures in the joint venture will be split in accordance with the equity interests of the parties. The PFS was completed in October 2023. The proceeds on sale of the 15% interest in Hard Creek were recognized as non-controlling interest.

The Company subleases part of their office space to other companies. One sublease with a related party (Note 10) is month to month lease at a rate of \$2,346 per month and one sublease was for a rate of \$1,505 per month. The total lease income from the subleasing of the office for the nine months ended September 30, 2024 was \$21,111 (2023 - \$25,627).

8. Share capital

Authorized share capital

Unlimited number of common shares without par value.

Financings

During the nine months ended September 30, 2024, the following equity financings were completed:

On August 7, 2024, the Company completed the first tranche of a private placement of units. The Company issued 6,516,667 units at \$0.15 per unit for gross proceeds of \$977,500. Each unit consists of one common share and one share purchase warrant. Each warrant entitles the holder to purchase one common share at an exercise price of \$0.22 per share up to August 7, 2027.

The Company used the residual method to value the share purchase warrants within the Units with a value of \$nil allocated to the share purchase warrants.

In connection with the first tranche of the private placement, the Company paid finders' fees of \$27,300 and issued 182,000 finders' warrants. Each finders warrant entitles the holder to purchase one common share at an exercise price of \$0.22 per share up to August 7, 2027.

The fair value of \$10,755 for the finders' warrants was estimated using the Black-Scholes Option Pricing Model and was charged to share issue costs and credited to share-based payment reserve. The assumptions used in the Black-Scholes Option Pricing Model were as follows: share price of \$0.155; exercise price of \$0.22; expected volatility of 69%; expected life of 3 years; a risk-free interest rate of 3.65%; and an expected dividend rate of nil.

II) On August 21, 2024, the Company completed the final tranche of a private placement of units. The Company issued 1,166,666 units at \$0.15 per unit for gross proceeds of \$175,000. Each unit consists of one common share and one share purchase warrant. Each warrant entitles the holder to purchase one common share at an exercise price of \$0.22 per share up to August 21, 2027.

The Company used the residual method to value the share purchase warrants within the Units with a value of \$nil allocated to the share purchase warrants.

In connection with the final tranche of the private placement, the Company paid finders' fees of \$8,259 and issued 55,067 finders' warrants. Each finders warrant entitles the holder to purchase one common share at an exercise price of \$0.22 per share up to August 21, 2027.

The fair value of \$3,439 for the finders' warrants was estimated using the Black-Scholes Option Pricing Model and was charged to share issue costs and credited to share-based payment reserve. The assumptions used in the Black-Scholes Option Pricing Model were as follows: share price of \$0.16; exercise price of \$0.22; expected volatility of 69%; expected life of 3 years; a risk-free interest rate of 3.52%; and an expected dividend rate of nil.

The Company incurred other cash issuance costs including legal and filing fees of \$18,654 in connection with the private placements.

During the nine months ended September 30, 2023, the Company did not complete any equity financings.

Basic and diluted loss per share

The calculation of basic and diluted loss per share for the nine months ended September 30, 2024 was based on the loss attributable to common shareholders of \$1,134,331 (2023 - \$1,460,562) and the weighted average number of common shares outstanding of 99,386,792 (2023 – 97,904,128).

Diluted loss per share did not include the effect of 9,255,000 stock options and 20,720,642 warrants as the effect would be anti-dilutive.

Stock options

The Company has adopted an incentive stock option plan, which provides that the Board of Directors of the Company may from time to time, in its discretion, and in accordance with the Exchange requirements, grant to directors, officers, employees and technical consultants to the Company, non-transferable stock options to purchase common shares, provided that the number of common shares

reserved for issuance will not exceed 10% of the Company's issued and outstanding common shares. Such options will be exercisable for a period of up to 5 years from the date of grant. In connection with the foregoing, the number of common shares reserved for issuance to any one optionee will not exceed five percent (5%) of the issued and outstanding common shares and the number of common shares reserved for issuance to all investor relations and technical consultants will not exceed two percent (2%) of the issued and outstanding common shares. Options may be exercised no later than 90 days following cessation of the optionee's position with the Company or 30 days following cessation of an optionee conducting investor relations activities' position.

On exercise, each option allows the holder to purchase one common share of the Company. The changes in options during the nine months ended September 30, 2024 and the year ended December 31, 2023 are as follows:

11. Financial instruments and financial risk management

The Company is exposed in varying degrees to a variety of financial instrument related risks. The Board of Directors approves and monitors the risk management processes, inclusive of documented investment policies, counterparty limits, and controlling and reporting structures. The type of risk exposure and the way in which such exposure is managed is provided as follows:

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The Company's primary exposure to credit risk is on its cash held in bank accounts and financial institutions. This risk is managed by using major banks and financial institutions that are high credit quality financial institutions as determined by rating agencies. The Company's secondary exposure to risk is on its receivables. The risk is minimal as receivables consist primarily of refundable government taxes.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company has a planning and budgeting process in place to help determine the funds required to support the Company's normal operating requirements on an ongoing basis. The Company ensures that there are sufficient funds to meet its short-term business requirements, taking into account its anticipated cash flows from operations and its holdings of cash and cash equivalents.

Historically, the Company's sole source of funding has been the issuance of equity securities for cash, primarily through private placements. The Company's access to financing is always uncertain. There can be no assurance of continued access to significant equity funding.

The following is an analysis of the contractual maturities of the Company's liabilities as at September 30, 2024:

Asset retirement obligations		-		-	590,000
	\$	224,214	\$	-	\$ 590,000

Foreign exchange risk

Foreign currency risk is the risk that the fair values of future cash flows of a financial instrument will fluctuate because they are denominated in currencies that differ from the respective functional currency. The Company has exposure to foreign exchange risk with respect to its cash balances. As at September 30, 2024, the Company had cash held in US dollars of US\$24,029.

Fair value

The fair value of the Company's financial assets and liabilities at amortized cost approximates the carrying amount. Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities;
- Level 2 Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and
- Level 3 Inputs that are not based on observable market data.

The following is an analysis of the Company's financial assets measured at fair value as at September 30, 2024 and December 31, 2023:
