About Giga Metals

Giga Metals Corporation’s core asset is the Turnagain Project, located in northern British Columbia, which contains one of the few significant undeveloped sulphide nickel and cobalt resources in the world. Turnagain is held in Hard Creek Nickel, a subsidiary owned 85% by Giga Metals Corporation and 15% by Mitsubishi Corporation. A Pre-Feasibility Study was released in October 2023.

Giga Metals has conducted a comprehensive data review and airborne magnetics reprocessing, which concluded that there are several new target types in play warranting further evaluation. (See [News Release dated December 2, 2024.](#))

About PDAC

The World’s Premier Mineral Exploration & Mining Convention is the leading convention for people, governments, companies and organizations connected to mineral exploration. In addition to meeting more than 1,100 exhibitors, 2,500 investors and 26,000 attendees in person in 2024, participants could also attend programming, courses and networking events.

The annual convention is held in Toronto, Canada. It has grown in size, stature and influence since it began in 1932 and today is the event of choice for the world's mineral industry.

For more information and/or to register for the conference please visit: <https://www.pdac.ca/convention>.

On behalf of the Board of Directors,

“Mark Jarvis”
